

# Have You Tried?

Lydia E. Pinkham's Vegetable Compound? We can furnish positive proof that it has made many remarkable cures after all other means had failed.

Women who are suffering with some form of female illness should consider this.

As such evidence read these two unsolicited testimonial letters. We guarantee they are genuine and honest statements of facts.

Cresson, Pa.—"Five years ago I had a bad fall, and hurt myself inwardly. I was under a doctor's care for nine weeks, and when I stopped I grew worse again. I sent for a bottle of Lydia E. Pinkham's Vegetable Compound, took it as directed, and now I am a stout, hearty woman."—Mrs. Ella E. Alkey, Cresson, Pa.

Baird, Wash.—"A year ago I was sick with kidney and bladder troubles and female weakness. The doctors gave me up. All they could do was to just let me go as easily as possible. I was advised by friends to take Lydia E. Pinkham's Vegetable Compound and Blood Purifier. I am completely cured of my ills, and I am nearly sixty years old."—Mrs. Sarah Leighton, Baird, Wash.

Evidence like the above is abundant showing that the derangements of the female organism which breed all kinds of miserable feelings and which ordinary practice does not cure, are the very disorders that give way to Lydia E. Pinkham's Vegetable Compound.

Women who are afflicted with similar troubles, after reading two such letters as the above, should be encouraged to try this wonderfully helpful remedy.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

## DYAMANTED DAM IS TO BE PUT IN USE

Reservoir Abandoned by Persons Who Spent Small Fortune Will Be Repaired.

The reclamation of an abandoned reservoir in Beaver and Millard counties is a project that is being taken up by P. B. McKee of Millard and E. H. Althoff of Salt Lake. During the past two weeks they have been in southern Utah straightening up land titles and have now secured about 10,000 acres of what are said to be some of the richest lands in the state.

The big tract is along the line of the Salt Lake Route, half of it being in Beaver county and half in Millard county. The southern boundary of the tract is about five miles north of Millard. The soil is a rich, black loam and is said to be highly productive.

Hay grows wild to quite a height on this tract of land, said Mr. McKee in description of the nature of the land. "For years the old settlers of Panguitch and Oasis used to depend on this section for their hay and every summer they would go over there and cut hundreds of tons. A tract near the center of this land that last season would have yielded 2,000 tons of the native grasses from as many acres. Instead of cutting and stacking, herds of cattle were turned in and found ample food for several months."

"Eighteen months ago a party from Texas settled on part of this land, and at an expense of \$30,000 constructed canals and a large reservoir. The reservoir stands today. It had capacity sufficient to irrigate 5,000 acres. The people from Texas intended to use the surplus water from the streams of the neighborhood, but they got into litigation with the settlers; expensive lawsuits involving priority water rights ensued, and finally, broke and discouraged, the Texans threw up the sponge and left the country, without having the privilege of testing their irrigation scheme for one season and after expending this fortune in the project."

"Some of the settlers even went so far as to place dynamite in the reservoir and blow out one side, the gap of 30 feet still being in evidence today. After the abandonment by the Texans the land reverted to the government, and was afterward homesteaded by several parties from this country. We have secured this old reservoir site, and all that will be necessary to place it in good condition will be an expenditure of about \$5,000."

"Land in this section of the country is worth \$20 an acre and up, but with a perpetual water right it will undoubtedly be doubled in value. A yield of 100 bushels of oats to the acre is no unusual thing. When we get the reservoir and the system of canals ready for operation, our intention is to cut the land up and sell it in small farms of 40 to 60 acres each, following the idea that a small farm well tilled is better than a large farm poorly tilled."

## GRAND VALLEY LAND RESTORED TO ENTRY

Tracts Withdrawn From Public About Two Years Ago Opened Again.

Part of the land withdrawn from public entry two years ago for use in the Grand valley reclamation project has been restored to entry, according to advices received Wednesday from Washington by the local land office.

This land, situated along Grand river, extended a mile from either bank. The latest withdrawal, which is a substitute for the former one, follows more closely the present policy of the government. The new withdrawal makes the strip along the Grand river, when surveyed, lie within one-quarter mile of the river instead of a mile as formerly. Following is a description of the lands restored to entry:

Township 19 south, range 26 east: Section 23, lots 1, 2 and 3, s. w. 1/4 of s. w. 1/4; section 20, lots 1 and 2, n. e. 1/4 of s. w. 1/4; section 21, lot 3; section 22, w. 1/2 of s. w. 1/4.

Township 20 south, range 26 east: Section 12, lots 6 and 7; section 12, lot 3, n. e. 1/4 of s. w. 1/4. Every smallest legal subdivision in sections 23, 20, 27, 24 and 25, any portion of which will, when surveyed, lie within one-quarter mile of the Grand river.

Township 21 south, range 26 east: Section 13, s. w. 1/4 of s. w. 1/4; section 15, lot 3, n. e. 1/4 of s. w. 1/4; s. w. 1/4 of s. w. 1/4; section 22, lots 2 and 3, w. 1/2 of n. e. 1/4 of s. w. 1/4; n. e. 1/4 of n. e. 1/4; n. w. 1/4 of s. w. 1/4; section 24, s. w. 1/4 of s. w. 1/4; section 25, n. 1/2 of s. w. 1/4; section 26, lots 1, 5 and 9, n. e. 1/4 of s. w. 1/4; section 27, lot 3, w. 1/2 of s. w. 1/4; s. e. 1/4 of s. w. 1/4; section 28, lots 1, 4, 5 and 8, w. 1/2 of n. w. 1/4; s. e. 1/4 of n. w. 1/4; n. 1/2 of s. w. 1/4.

Township 22 south, range 26 east (partly unsurveyed): Every smallest legal subdivision in sections 1 to 24, inclusive, any portion of which will, when surveyed, lie within one-quarter mile of the Grand river. Section 28, lots 2, 3 and 6; section 29, lots 1, 2, 3 and 4; n. e. 1/4 of n. e. 1/4; s. w. 1/4 of n. e. 1/4; section 31, s. w. 1/4 of s. w. 1/4. The remainder of the land in the following townships and ranges is still withdrawn:

Township 21 south, range 24 east: township 19 south, range 25 east; township 20 south, range 25 east; township 22 south, range 24 east; township 20 south, range 25 east; township 19 south, range 26 east.

## AIDS BOYS AND GIRLS

Judge Alexander McMaster Addresses Relief Society About Juvenile Court.

At the annual conference of the relief society of Salt Lake stake, held at the Fourteenth ward meeting hall yesterday, Judge Alexander McMaster of the juvenile court addressed the large gathering on juvenile court work.

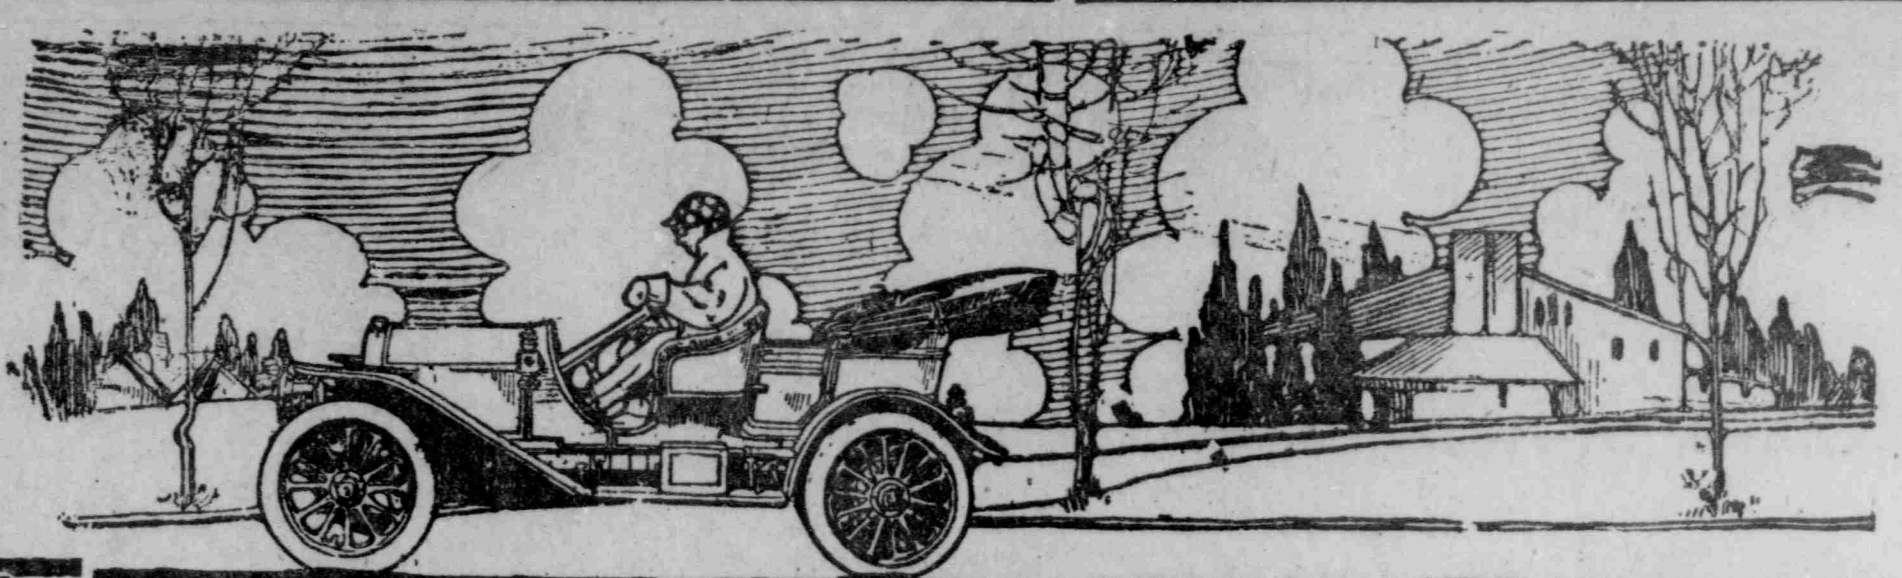

Judge McMaster pointed to the splendid results obtained in the correction of wayward boys and girls since the juvenile courts were established throughout the country. He dwelt especially upon the work of the court in Salt Lake.

"The juvenile court filled a long-felt want," said Judge McMaster. "Boys and girls cannot be dealt with as criminals. The juvenile court has for its purpose the correction rather than the punishment of juvenile delinquency. There is every argument in its favor. However, the court must have the co-operation of parents. Proper home influence deters juvenile delinquency. In a large majority of cases where boys and girls go wrong, their waywardness can be directly traced to the lack of proper home training."

The annual report of Harriet B. Barker, president of the relief society, showed the society to be in excellent working condition, and that its members have for the past year been working diligently among the poor in the various wards of Salt Lake stake. The severe winter was a hard drain on the funds of the society. The bishops of several of the wards spoke briefly on the work directly under their charge.

A grand ball will be given Friday evening, April 1, 1910, in the O. O. F. hall, Postoffice place, under the auspices of the Danish Sister society, "Utah" No. 99. All invited.

## CONFERENCE WILL BRING THOUSANDS

Indications Are That Multitude of Visitors Are Coming This Year.

Indications point to a record-breaking attendance at the coming general conference of the Mormon church, which begins April 3. The railroads throughout Utah and the neighboring states are making preparations to handle a large crowd of excursionists. The tickets, which will have a ten-day limit, will probably be put on sale April 1. Delegates are expected from Canada, Arizona and Mexico.

The hotels and rooming houses which have been taxed to the utmost on former occasions, will have great difficulty in handling the expected crowd. The call for the eightieth annual general conference of the Mormon church is for Sunday, April 3. It will assemble in the tabernacle at 10 a. m., and Joseph Smith, president of the church, will preside at the meeting.

four days, or until April 8, the day which every conference date must include as being the anniversary of the founding of the church on April 8, 1830. The semi-annual conference in October also includes the sixth of October as one of the days of assembly.

A second session will be held on the afternoon of April 3 in the tabernacle, and the general priesthood meeting will take place in the tabernacle on Monday, April 4, beginning at 7 p. m. Other general sessions will be announced at conference. Meetings of the various societies of the church will be held during the four days in the various church assembly halls. The relief societies, the Young Ladies' Mutual Improvement association, the Young Men's Mutual Improvement association, the Primary association, the returned missionaries and all similar organizations will hold meetings of the general conference at headquarters and stake and local officers will preside.

The general priesthood meeting of the church will be held on Monday, April 4, at 10 a. m. The relief societies, the Young Ladies' Mutual Improvement association, the Young Men's Mutual Improvement association, the Primary association, the returned missionaries and all similar organizations will hold meetings of the general conference at headquarters and stake and local officers will preside.

The time usually allotted to conference is three days. On this occasion the session is expected to include April 6, giving four days. It is possible that an adjournment of the meetings for one day will take place on account of the lengthened session.

The first Sunday of the month being Conference Sunday, it is suggested by the first presidency that the last Sunday in March be observed as fast day in

### CAR OF GRAPE FRUIT

First Consignment of That Size Ever Received Here.

An entire carload of Florida grape fruit was received yesterday by the firm of Ryan & Virden. It was the first car ever shipped here from Florida.

Though small consignments of the fruit have been received by the commission houses from time to time. Heretofore grape fruit sold in the local markets has come from the California orchards. The fruit has in the past few years become a staple article of food, but its cost, as compared with the smaller citron product, is so great that it is not generally used. With other competing points of production, it is probable that larger shipments will be made and the fruit, which for delicacy of flavor is unsurpassed, will grow in popular favor.

ATHLETES NEED FENCE

Students May Help Build It If Material Is Furnished.

All that is needed for a complete athletic field at the high school, is an eight-foot fence around the north and west quarter of the block, the part of the

grounds used as drill and practice field. The committee on buildings and grounds of the board of education will recommend its erection at the next meeting of the board on Tuesday. It is expected that the money appropriated will not be sufficient for the work necessary, and the boys of the school will undertake to build the fence if the board provides the material. After the board provides the material, the boys will build the fence under the direction of a master carpenter. When it is completed, the enclosed field will be used for all high school athletic events. It will be necessary to have the grounds in readiness by April 7, if the first baseball game of the season with the Utah Agricultural college is to be played on the home field.
